

LSGI Distinguished Lecture Series

Recent Advances in Image Engineering

*by Prof. Derek Lichti,
University of Calgary, Canada*

Date : 30 November (Monday), 2015
Time : 3:00 PM
Venue : ZN604

Abstract

This presentation will give an overview of Dr Lichti's research program on imaging metrology, focusing on new developments in automated construction site monitoring by terrestrial laser scanning and dual-fluoroscopic imaging system modelling for human motion capture.

Biography

Derek Lichti is Professor and Head of the Department of Geomatics Engineering at the University of Calgary. He earned his undergraduate degree in Survey Engineering from Ryerson University in Toronto, Canada and MSc and PhD from the University of Calgary. After completing his doctorate in 1999 he was an academic at Curtin University in Perth, Australia until 2007. He was Chair of the ISPRS Working Group on Terrestrial Laser Scanning (2004-2008 and 2008-2012) and has been Editor-in-Chief of the ISPRS Journal of Photogrammetry and Remote Sensing since January 2013.

All interested are welcome

Please visit <https://myacs.polyu.edu.hk/utis/mysurvey/index.php/632532/lang-en> to fill in the registration form. All registered attendees will receive a Certificate of Attendance after the lecture.
