

LSGI Distinguished Lecture on “Advanced machine learning methods for per-pixel remote sensing image classification” by Prof. Peijun DU

It was our pleasure to invite Prof. Peijun DU, Nanjing University in China to be our speaker in the LSGI Distinguished Lecture Series on 26 October 2015. In this lecture, he reviewed some hot topics of per-pixel classification from three aspects, rather than covering all issues related to land cover classification. The lecture was well received by the audience and LSGI staff and students had a fruitful discussion with Prof. DU after the lecture.

Prof. DU is a Professor of Remote Sensing at the Department of Geographic Information Sciences, Nanjing University, and the deputy director of the Key Laboratory for Satellite Mapping Technology and Applications of National Administration of Surveying, Mapping and Geoinformation (NASG), China.
