

Entrance Requirements

For Entry with HKALE Qualifications

You must satisfy the General Minimum Entrance Requirements of the University, and the following specific subject requirements of this programme:

- E in one of the following HKALE subjects: Pure Mathematics, Applied Mathematics, Computer Studies, Geography, Physics, or Engineering Science;
- OR
- E in one of the following HKALE(AS-Level) subjects: Applied Mathematics, Mathematics & Statistics, Computer Applications, or Physics.

Alternative Entry Route

- A Higher Diploma in Geomatics or the equivalent;
- OR
- A Diploma (with Credit) in Civil Engineering Studies, Building Studies, Electrical Engineering, Mechanical Engineering or Electronic & Communications Engineering.

Holders of a Higher Diploma in Geomatics or the equivalent may be given credit transfers for some relevant subjects.

Double Degree

Students who have grade C in HKCEE Mathematics or Additional Mathematics may opt for the double degree of BSc(Hons) in Geomatics (Geo-Information Technology) and BSc(Hons) in Computing.

A quota applies for this study option.

Professional Recognition

The programme is accredited by the Hong Kong Institute of Surveyors (HKIS), the Royal Institution of Chartered Surveyors (RICS), UK, the Institution of Civil Engineering Surveyors (InstCES), UK, and the Hong Kong Institution of Engineering Surveyors (HKInstES).

The accreditation of the Hong Kong Institute of Surveyors covers all three specialisms.

The Utility Surveying stream is to also be accredited by the Hong Kong Institute of Utility Specialists (HKIUS).

Credit Requirements

Full-time study: 94 credits (plus training)
