

Entrance Requirements

For Entry with HKALE Qualifications

You must satisfy the General Minimum Entrance Requirements of the University and the following specific subject requirements of this programme:

- HKALE or HKALE (AS-Level) Grade E or above in Use of English
Students with a grade of less than D in HKALE (AS-Level) Mathematics will be required to enroll in remedial classes after admission to the programme.

Alternative Entry Route

A Diploma in Civil Engineering Studies, Building Studies, Electrical Engineering, Mechanical Engineering, Electronic & Communications Engineering, or Computing Studies.

Academic Progression

Students with good results over both years of the programme may be, upon application, granted advanced standing for entry into the Department's BSc (Hons) in Geomatics programme.

This programme can also provide advanced entry to many overseas Geomatics degree programmes. Students may gain entry into the second year of such programmes.

Professional Recognition

This programme satisfies the academic requirements for Associate Membership of the Hong Kong Institution of Engineering Surveyors (HKInstES).

Credit Requirements

Full-time study: 60 credits
