

LSGI Distinguished Lecture Series

“Prospects of Deep Learning for Photogrammetry and Remote Sensing”

Overview

It was our pleasure to invite Prof. Dr.-Ing. Christian Heipke, Professor, Leibniz Universität Hannover, Germany, to deliver a seminar of the LSGI Distinguished Lecture Series on 22 October 2018.

Biography

Christian Heipke is a professor of photogrammetry and remote sensing at Leibniz Universität Hannover, where he currently leads a group of about 25 researchers. His professional interests comprise all aspects of photogrammetry, remote sensing, image understanding and their connection to computer vision and GIS. He has authored or co-authored more than 300 scientific papers, more than 70 of which appeared in peer-reviewed international journals. He is the recipient of the 1992 Otto von Gruber Award, the 2012 Fred Doyle Award, both from the International Society of Photogrammetry and Remote Sensing (ISPRS), and the 2013 Photogrammetric (Fairchild) Award from ASPRS. He is an ordinary member of the learned societies DGK (German Geodetic Commission), BWG (Braunschweig Scientific Society), acatech (German Academy for Technical Sciences), and IAA (International Academy of Astronautics).

From 2004 to 2009, he served as vice president of EuroSDR (European Spatial Data Research, formerly known as OEEPE). From 2011-2014 he was chair of the German Geodetic Commission (DGK), from 2012-2016 ISPRS Secretary General. Currently he serves as ISPRS President.
