PolyU Education Info Day 2014

PolyU Education Info Day was successfully held on 11 October 2014 (Saturday) with the great participation of the public especially the secondary school students, teachers and parents.

The booth of Department of Land Surveying and Geo-informatics (LSGI) was located at FJ podium with the demonstration of GPS and laser scanning equipment. Apart from our academic staff, representatives of the professional institutions, which accredited our programmes, were also present to explain the details of our programmes and provide valuable career and study advice to the visitors. More than 40 student helpers of LSGI assisted in the event and answered the enquiries of visitors.

Moreover, two sessions of information seminar in the topic of “The New Geomatics: Satellites, Google and Wifi Shopping” and four sessions of laboratory tour were held on that day in order to provide a great opportunity for visitors to have a new perspective on our department and programmes provided.
